## Administrative history / Biographical sketch

---

The Canadian Water Resources Association is a national organization of individuals and organizations interested in the management of Canada's water resources. It has branch organizations in most provinces and territories. CWRA history can be traced back to 1947 when the first meeting was held in Alberta as the Western Canada Reclamation Association. CWRA exists to stimulate public awareness and understanding of Canada's water resources, to encourage public recognition of the high priority of water as a valued resource, to provide a forum for the exchange of information and opinion relating to the management of Canada's water resources, and to participate with appropriate agencies in international water resource activities

---

## Scope and content

---
